about-me

I'm a developer and self-taught designer, currently based in Kuala Lumpur. I'm love learning new things and ready to improve.

Focus on Accessibility, DRY, minimal, good practice and dynamic codes.

recent-experience

FULL-STACK DEVELOPER

Nov 2020 - Present

Qworky

Remote

As fullstack developer, I contribute on creating UI components and implementing new features for better experience for users and developers on variety of web apps using MERN stack.

FULL-STACK DEVELOPER

Oct 2019 - Feb 2020

re.code

Sentul, Malaysia

Assigned to develop a mobile and web apps as a team based project. I've improved my coding such as structuring before codes, using comments to explain what it's about and enhanced my problem solving skills and learn new design patterns like RxDart, new languages such as Dart, React, Typescripts and Go. I was able to help the new company about branding, designing webpage and able to publish through wordpress.

GRAPHIC DESIGNER

2016 - Sept 2018

Flexi Printing Solutions Sdn Bhd

Kuchai Lama, Malaysia

Help clients creating logos, mockups, digital marketing social posts and design other printing materials for the companies
